

**AZAD JAMMU & KASHMIR HEALTH DEPARTMENT
COMBINED MILITARY HOSPITAL MUZAFFARABAD**

Dated: September 2002.

TO WHOM IT MAY CONCERN

It gives me immense pleasure to write about **Dr. Shamaila Manzoor**, who has been working in the department of Anaesthesia of this hospital from February 2002 to September 2002.

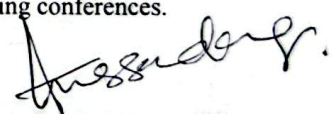

Combined Military Hospital Muzaffarabad officially has 350 beds. This hospital provides secondary and some tertiary care facilities to a civilian population of about 1.2 million in addition to armed forces personnel. This hospital is recognized for under and postgraduate training of nurses, house job of doctors FCPS-11 training in **General surgery, Medicine and M.C.P.S ENT**, as well as by Agha Khan University hospital for training of their FCPS-11 students in community surgery.

During her training she was a full time resident. She has administered general anaesthesia to more than 500 cases including Neuro Surgical, Obstetric, pediatric, urological, non-cardio thoracic, ENT, and ophthalmic patients.

She is also fully conversant with regional techniques including spinal, epidural analgesia, field blocks and painless labour.

She has also worked in intensive care unit and has managed emergencies efficiently. She is very decent and well behaved person who is respected by her medical and paramedical colleagues, as well as by the patients. She is hard working, reliable and trustworthy doctor. She has been actively involved in the training and teaching of doctors and paramedical staff during her stay in this hospital. She keeps herself updated with recent developments in Anaesthesia by reading journals and attending conferences.

I wish her all the best in her future undertakings.
